General Information

The following management discussion and analysis (“MD&A”) of the financial condition, changes in financial condition and results of operations of Converge Technology Solutions Corp. (the “Company” or “Converge”) constitutes management’s review of the factors that affected the Company’s financial and operating performance for the three months ended March 31, 2021 and 2020. This MD&A should be read in conjunction with the unaudited condensed interim consolidated financial statements and accompanying notes thereto for the three months ended March 31, 2021, as well as the Company’s annual MD&A for the year ended December 31, 2020.

The condensed interim consolidated financial statements have been prepared in accordance with accounting policies consistent with International Financial Reporting Standards (“IFRS”) as issued by the International Accounting Standards Board (“IASB”) and interpretations of the International Financial Reporting Interpretations Committee (“IFRIC”) in effect for the Company’s reporting three months ended March 31, 2021. The consolidated financial statements can be found at www.sedar.com and www.convergetp.com.

This MD&A was written to comply with the requirements of National Instrument 51-102 – Continuous Disclosure Obligations. This MD&A is dated as at May 11, 2021 and was approved by the Board of Directors on that date. Results are reported in thousands of Canadian dollars unless otherwise stated.

The Company’s registered head office is 85 Rue Victoria, Gatineau, Quebec, J8X 2A3.

About Forward-Looking Information

Certain information and statements within the MD&A and documents incorporated by reference may constitute "forward-looking information" (as defined in applicable Canadian securities legislation) which involve known and unknown risks, uncertainties and other factors which may cause the actual results, performance or achievements of the Company and its subsidiaries, or the industry in which the Company operates, to be materially different from any future results, performance or achievements expressed or implied by such forward-looking statements. When used in this MD&A, the words "estimate", "believe", "anticipate", "intend", "expect", "plan", "may", "should", "will", the negative thereof or other variations thereon or comparable terminology are intended to identify forward-looking statements. Such forward-looking statements reflect the current expectations of the management of the Company with respect to future events based on currently available information and are subject to risks and uncertainties that could cause actual results, performance or expansion and growth achievements to differ materially from those expressed or implied by those forward looking statements, such as significant changes in market conditions, the inability of the Company to close sales and the inability of the Company to attract sufficient financing and including the risk factors summarized above under the heading "Risks and Uncertainties". New risk factors may arise from time to time and it is not possible for management of the Company to predict all of those risk factors or the extent to which any factor or combination of factors may cause actual results, performance or achievements of the Company to be materially different from those expressed or implied in such forward-looking statements. Given these risks and uncertainties, investors should not place undue reliance on forward-looking statements as a prediction of actual results. Although the forward-looking statements contained in this MD&A are based upon what management believes to be reasonable assumptions, the Company cannot assure investors that actual results will be consistent with these forward-looking statements. The forward-looking statements contained in this MD&A speak only as of the date hereof. The Company does not undertake or assume any obligation to release publicly any revisions to these forward-looking statements to reflect events or circumstances after the date hereof or to reflect the occurrence of unanticipated events, except as required by law.

Non-IFRS Financial Measures

This MD&A refers to certain performance indicators including EBITDA and Adjusted EBITDA that do not have any standardized meaning prescribed by IFRS and may not be comparable to similar measures presented by other companies. Management believes that these measures are useful to most shareholders, creditors, and other stakeholders in analyzing the Company's results. These non-IFRS financial measures should not be considered as an alternative to the consolidated income (loss) or any other measure of performance under IFRS. See section "Non-IFRS Financial Measures".

Overview of the Business

Converge is a North American platform of regionally focused IT solution providers ("ITSP") in the United States of America ("US") and Canada connecting best of breed services and solutions to clients. Converge provides high quality hardware, software, and managed services solutions to corporate and government institutions.

Companies increasingly rely on the expertise and experience of an IT solutions provider to design their IT infrastructure and to procure and integrate the appropriate hardware and software for an integrated IT solution. This trend is largely driven by limited in-house capacity, higher costs and challenges related to internal development, deployment, and maintenance of complex and rapidly changing IT infrastructure. Furthermore, clients are increasingly looking to consolidate their vendors and minimize the number of providers they interact with for their IT needs. Companies are looking for providers who offer a broad portfolio of end-to-end capabilities including next generation technologies and new delivery models. Converge offers an extensive range of products, services, and solutions to meet these needs.

With significant increases in the amount of information and the abundance of data in today's market environment, companies are increasingly demanding a more agile, responsive technology infrastructure system that helps meet their strategic business objectives. These needs are increasingly under pressure with the desire to create virtual environments that can further leverage this growing dataset, including cloud computing. Cloud computing heavily

leverages resource pools in a variety of different technologies – storage and networking, virtualization, and the data center. Converge believes that these technologies are not only central aspects of a company's IT strategy, but also central to a company's broader business strategy.

As a buyer of Information Technology Service Providers ("ITSPs"), Converge tends to seek out sellers that have digital transformation, cloud, compliance, security, vertical market, and regional expertise. With a focus on these areas, Converge believes it is well positioned to become a solutions leader within these segments.

Strategy

Identify and Acquire. Converge's strategy is to identify and acquire ITSPs that offer a multi-vendor technology solution for clients. Selecting the right companies for acquisition is essential to creating market momentum and is pivotal in delivering lasting value for the company's stakeholders. Converge selects ITSPs with proven business, technical, enterprise client and industry experience that are known and recognized for the business value they create for its clients and partners.

Invest and Transform. Building on the capabilities, relationships, and value of acquired companies, Converge invests in resources, education, tools, and relationships to deepen domain level expertise in specific technology practice areas and industry sectors. Converge has acquired and built public and private cloud capabilities that transform ITSPs into Hybrid IT providers.

Consolidate Certain Back-Office Functions. Starting with back office and support functions, Converge creates significant financial and operating efficiencies and service level gains by leveraging its best-of-breed systems, purchasing power, staff, and processes across acquired companies.

Volume Rebates. Converge provides value to clients and the market by identifying and expanding business, industry, and technical solutions competencies across acquired businesses, including leveraging vendor certifications and hardware volumes across groups to receive increased pricing incentives and rebates.

With its first acquisitions in 2017, Corus360 and Northern Micro, Converge was able to establish an acquisition platform that closely aligned with its stated strategy. During the first quarter of 2018, Converge acquired Becker-Carroll, a company specialized in delivering powerful blockchain solutions. During the second quarter of 2018, Converge expanded its offerings with the acquisition of Key Information Systems, Inc. ("KeyInfo"), an infrastructure company that simplifies complex technology challenges, and BlueChip Tek Inc. ("BCT"), an information technology professional services organization specialized in data center infrastructure integration, cloud optimization, and data center infrastructure solutioning. In the fourth quarter of 2018, Converge acquired Lighthouse Computer Services, Inc., Creative Computing, LLC, Lighthouse Middleware, LLC, and Acumetrics Business Intelligence Inc. (collectively "Lighthouse"), a highly skilled company experienced in analytics, hybrid cloud, infrastructure, and cybersecurity. During the first quarter of 2019, Converge acquired SIS Holding Company, LLC and Software Information Systems, LLC (collectively "SIS"), a strategic company focused on managed cloud delivery, compute efficiency, network optimization, and IT spend optimization. During the third quarter of 2019, Converge acquired Nordisk Systems, Inc. ("Nordisk"), a professional services organization specialized in infrastructure, cloud, security, analytics, business continuity and managed services solutions. During the fourth quarter of 2019, Converge acquired Essextac Acquisition, LLC. ("Essextac"), a leading Wall Street-based cloud, cognitive, and cybersecurity solution provider, Datatrend Technologies, Inc. ("Datatrend"), a leading technology solutions provider focused on Next Gen Data Center, hybrid cloud, infrastructure, multi-site IT deployments, and ISV/OEM solutions, and VSS Holdings, LLC ("VSS"), a leading technology solutions provider specializing in managed services, technology solutions, IT portfolio management and consulting services.

On February 1, 2020, the Company acquired all of the issued and outstanding shares of Solutions P.C.D. Inc. and P.C.D. Consultation Inc. (collectively "PCD"), a Montreal, Canada based partner focused on solutions in enterprise system architecture, storage and information management, virtualization and cloud, and business continuity and disaster recovery. On October 1, 2020, the Company acquired all of the issued and outstanding shares of Unique Digital, Inc. ("Unique Digital"), a Texas-based IT solutions provider focused on architecting and implementing solutions in big data, cloud, data protection networking, security, and virtualization. On December 1, 2020, the Company acquired all of the issued and outstanding shares of Workgroup Connections, Inc. ("Workgroup"), a US-based IT solutions provider with headquarters in Missouri and Colorado, that specializes in leading-edge cloud, software development, and licensing services and solutions. On December 22, 2020, the Company acquired all of the issued and outstanding shares of Vivvo Application Studios, Inc. ("Vivvo"), a Canadian technology innovation organization that delivers a feature-rich, production-ready, proven identity-management-as-a-service (IDMAAS) platform that enables and accelerates digital transformation. On December 31, 2020, the Company acquired all of

the issued and outstanding shares of Vicom Computer Services, Inc. ("Vicom"), a New York-based full-service multi-cloud infrastructure provider.

On January 6, 2021, the Company acquired all of the issued and outstanding shares of CarpeDatum LLC, ("CarpeDatum"), a Colorado-based analytics consulting organization. On February 12, 2021, the Company acquired all of the issued and outstanding shares of Accudata Systems LLC, ("Accudata"), a Texas-based IT consulting and integration firm that provides infrastructure and security solutions and services.

COVID-19

The COVID-19 pandemic continues to present a source of economic uncertainty to the Company. These uncertain economic conditions may adversely impact operations and the financial performance of the Company and its customers, negatively impact demand for the Company's products and services or the equity markets, which could adversely affect the Company's financial performance. As of the date of this MD&A, Converge has experienced increased demand for solutions that allow employees to work remotely. As a result, the Company has experienced increased revenue in some of its product and service offerings that support remote work and cloud enablement as companies and organizations invest in solutions that allow their employees to work remotely and access information and systems by way of cloud infrastructure. However, if the Company or its vendors and suppliers are unable to keep up with such increasing demands stemming from the recent outbreak of COVID-19, customers may experience delays or interruptions in service, which may be detrimental to the Company's reputation and business.

Operationally, Converge has implemented technology and procedures that enable the majority of its employees to work remotely with minimal disruption to the Company's operations. To the extent that employees are required to be in the office or warehouse to fulfill orders, the Company has followed guidelines and rules put in place by local, state, provincial and federal governments. The Company has good relations with its suppliers and is in regular contact with them and to date, has not experienced any meaningful disruptions in its supply chain that have negatively impacted the Company's ability to meet its demand and fulfill customer orders.

The Company cautions that it is impossible to fully anticipate or quantify the effect and ultimate impact of the COVID-19 pandemic as the situation is rapidly evolving. The extent to which COVID-19 impacts the Company's results will depend on future developments, which are highly uncertain and cannot be predicted, including new information that may emerge concerning the severity of COVID-19 and the actions taken by governments to contain it or treat its impact. These may include shelter in place directives, which, if extended, may impact the economies in which the Company now, or may in the future, operate, key markets into which the Company sells and markets through which the Company's key suppliers source their products.

The transaction will be accounted for as a business combination. Consideration for the purchase consisted of (i) \$49,671 (\$39,500 USD) in cash; and (ii) promissory notes in aggregate of \$11,318 (\$9,000 USD) payable over the three years following closing of the acquisition.

Graduation to Toronto Stock Exchange (TSX)

On February 9, 2021, the Company announced that it had received final approval from the Toronto Stock Exchange ("TSX") to graduate from the TSX Venture Exchange ("TSXV") and list the Company's common shares ("Common Shares") on the TSX. The Common Shares commenced trading on the TSX at the opening of markets on Thursday, February 11, 2021 under the existing stock symbol "CTS". In connection with the listing of the Common Shares on the TSX, the last day of trading on the TSXV was February 10, 2021 and the Common Shares were delisted from the TSXV on February 11, 2021 upon commencement of trading on the TSX.

Outlook for fiscal 2021

In response to the fluctuating nature of COVID-19 and its variants, governments around the globe have enacted measures in the attempt to manage the spread of the novel strain. These ongoing measures, which include the implementation of travel bans or restrictions, social distancing, and the closure or curtailing of the operations for some non-essential businesses have resulted in transformational shifts surrounding remote work and virtualization. As a result, Converge has experienced increased demand for transformative solutions and expects that companies will continue to increase the use of cloud or hybrid cloud computing along with remote access into 2021 and beyond. The Company also anticipates that businesses will continue to increase investment spending surrounding cybersecurity, artificial intelligence, and overall digital transformation efforts. Converge's national footprint and partnerships with several leading hardware and software companies, positions the Company well to support these trends.

While the long-term impacts and duration of COVID-19 still remain uncertain and cannot be predicted with absolute certainty, in the near term, Converge remains well-positioned to assist its current and prospective clients meet the demands to support remote workers and the challenges which may arise, as well as manage the hardware and fulfillment orders where applicable. While Converge continues to work closely with suppliers and customers during these times of uncertainty as a trusted advisor, there can be no assurance the Company will continue to see increased demand or be able to fully supply such demand.

Enterprise IT Priorities

According to the Enterprise Strategy Group, which examines key business and technology priorities driving spending plans across a range of technology markets including infrastructure, cloud services, cybersecurity, artificial intelligence (AI), analytics, data protection, mobility, business applications, and more, Technology Spending Intentions Survey 2021 finds the top four technology focus areas for IT leaders are:

- Enterprise tech spending is poised to rebound
- The transition to remote work remains a contributing driver of new spending
- Cybersecurity is job number one
- Cloud adoption is accelerating

Enterprise Tech Spending Rebound

Enterprise technology streamlines workflows, improves communication, and provides access to data. COVID-19 has dramatically changed the landscape of the traditional workplace, the technology sector, and the world as a whole. The need for reliable communication with fully remote teams, the ability to securely access data from any checkpoint across the globe, and a continued desire for efficiency and simplification in operations, requires organizations to invest in enterprise technology in the coming year. Specifically, teams who found themselves unprepared for the drastic and immediate shift to a new way of doing business are now poised to increase their spend in this sector during 2021. As demand grows, Converge remains available to meet the needs of our clients and customers.

Remote Work

In 2020, the fast-paced shift and demand for remote work left many organizations feeling unprepared to support a workforce operating outside the standard office space. Employees and businesses were quickly forced into working from home and, without the appropriate technology and infrastructure in place for such a dramatic change, teams found themselves struggling to secure the normal course of business. This led to a pressing demand to implement remote work technologies and solutions that are expected to continue into 2021 and beyond.

Cybersecurity

With increase in remote work, there is also an increased need for security and cybersecurity solutions to keep information private and secure from outside forces. As internal and external cyber threats continue to multiply in an unprecedented way, securing data, environments, and systems is a top priority in every industry. Converge's cybersecurity practice is comprised of an ever-evolving set of defense tools, risk management approaches, technologies, and training. These industry-driven security solutions provide customers the ability to add security everywhere from the core architecture, the network, the edge, and the endpoint while staying ahead of threats and providing fast remediation options.

Cloud Adoption

Cloud adoption is a strategy used by organizations to improve scalability while reducing cost and risk. Although traditional cloud solutions have often focused on either public or private cloud, there has been a recent emergence in the adoption of hybrid cloud, which allows businesses the ability to combine one or more cloud providers' offerings into a unique solution for that organization's specific needs. Additional benefits include the ability to store data in the private cloud while leveraging the technological resources from the public cloud. Due in part to COVID-19, cloud adoption has increased with the expansion of remote work and is a trend that is expected to continue. Converge has grown its cloud practice and finds itself increasingly prepared to assist customers in their journeys through public, private, hybrid, or any combination of cloud solutions.

Converge's Competitive Positioning

With a suite of software enabled hybrid IT solutions backed by industry-leading advanced analytics, cloud, cybersecurity, digital infrastructure and managed services, and talent solutions, Converge has strategically positioned itself as a valued supplier for customers and as a leader in this industry. The Company continues to rapidly move forward towards a services-oriented model in line with large IT vendors and consulting firms.

Execution of this strategy includes Converge's continued focus on its approach to growth through selective acquisitions and development of recurring revenue offerings. Converge's consolidation strategy provides customers with the resources and technical capabilities of a scaled platform, while maintaining the brand, reputation, and dedicated resources of a regional provider. An emphasis on hybrid IT solutions also facilitates entry into new markets and verticals, as well as cross-selling opportunities with existing customers.

In 2021, Converge will endeavor to strengthen its managed services, software, and recurring revenue offerings across North America. Additionally, in 2021 Converge plans to expand its operations into Europe.

Adjusted EBITDA⁽ⁱ⁾	\$ 18,768	\$ 11,044

(i) See the "Adjusted EBITDA (Non-IFRS Financial Measurement)" for a reconciliation of this measurement to IFRS.

Adjusted EBITDA (Non-IFRS Financial Measurement)

Adjusted EBITDA represents net income (loss) or income adjusted to exclude amortization, depreciation, interest expense and finance costs, foreign exchange gains and losses, income tax expense, and special charges. Special charges consist primarily of restructuring related expenses for employee terminations, lease terminations, and restructuring of acquired companies, as well as certain legal fees or provisions related to acquired companies. From time to time, it may also include adjustments in the fair value of contingent consideration, and other such non-recurring costs related to restructuring, financing, and acquisitions. The Company uses Adjusted EBITDA to provide investors with a supplemental measure of its operating performance and thus highlight trends in its core business that may not otherwise be apparent when relying solely on IFRS financial measures. The Company believes that securities analysts, investors, and other interested parties frequently use non-IFRS measures in the evaluation of issuers. Management also uses non-IFRS measures in order to facilitate operating performance comparisons from period to period, prepare annual operating budgets and assess the ability to meet capital expenditure and working capital requirements.

Converge Technology Solutions Corp.

Management Discussion and Analysis

(expressed in thousands of Canadian dollars)

Adjusted EBITDA is not a recognized, defined, or standardized measure under IFRS. The Company's definition of Adjusted EBITDA will likely differ from that used by other companies and therefore comparability may be limited. Adjusted EBITDA should not be considered a substitute for or in isolation from measures prepared in accordance with IFRS. Investors are encouraged to review the Company's financial statements and disclosures in their entirety and are cautioned not to put undue reliance on non-IFRS measures and view them in conjunction with the most comparable IFRS financial measures. The Company has reconciled Adjusted EBITDA to the most comparable IFRS financial measure as follows:

	For the three months ended March 31,	
	2021	2020
Net income (loss) before taxes	\$ 5,102	\$ (1,589)
Finance expense	2,420	5,499
Depreciation and amortization	6,488	5,401
Depreciation included in cost of sales	695	1,434
Foreign exchange loss (gain)	1,012	(1,640)
Special charges	3,051	1,939
Adjusted EBITDA	\$ 18,768	\$ 11,044

For the three months ended March 31, 2021, special charges are primarily due to \$958 of acquisition transaction costs, \$196 of legal provisions and other costs related to acquired companies, \$128 in amortized financing related costs, \$1,172 of restructuring costs related to the integration of acquired companies, and \$597 due to a change in fair value of contingent consideration. During the same period in the prior year, special charges were primarily due to \$507 of acquisition transaction costs, \$1,257 of restructuring charges related to the integration of acquired companies, and \$175 of other costs.

Overall Company Performance and Key Changes in Financial Results

Revenue

	For the three months ended March 31,	
	2021	2020
Product	\$ 252,507	\$ 190,383
Managed Services	16,379	13,527
Professional and other services	41,316	37,615
Total	\$ 310,202	\$ 241,525

Product revenue, which includes hardware and software, for the three months ended March 31, 2021 increased 33% to \$252,507 from \$190,383 for the three months ended March 31, 2020, primarily due to higher sales to the Canadian government and the impact of the acquisitions of Unique Digital, Workgroup, Vivvo, Vicom, CarpeDatum, and Accudata that were completed during the period subsequent to March 31, 2020. Managed services, which are long term contracts, increased 21% to \$16,379 from \$13,527 last year primarily due to organic growth of managed cloud services to customers. Professional and other services which include professional and staffing services and the net revenue from public cloud resell and software support, increased 10% to \$41,316 from \$37,615 last year primarily due to and the impact of the acquisitions.

For the three months ended March 31, 2021, revenue by industry was approximately 13% from banking and financial services companies, 22% from government, 25% from technology companies, and 12% from healthcare.

Gross profit and gross profit margin

For the three months ended March 31, 2021, gross profit increased 24% to \$67,797 from \$54,835 last year and gross profit margin of 21.9% decreased from 22.7% in the same period last year. The decrease in gross profit

margin is due primarily to the impact of recent acquisitions that sell primarily lower margin hardware and higher sales to the Canadian government of hardware products.

Selling, general, and administrative expenses

Selling, general, and administrative expenses comprised of the following expenses for the periods indicated below:

For the three months ended March 31,		
	2021	2020
Salaries and benefits	\$ 42,949	\$ 36,900

	2021	2020
Amortization of intangibles	\$ 4,287	\$ 3,101
Depreciation of right of use assets and equipment	2,201	2,300
Total	\$ 6,488	\$ 5,401

Amortization of intangibles increased to \$4,287 from \$3,101 primarily due to intangible assets related to the acquisitions of companies purchased subsequent to March 31, 2020. Depreciation for the three months ended March 31, 2021 decreased to \$2,201 from \$2,300 last year primarily due to a decrease in the foreign currency translation rate into Canadian dollars offset by right of use asset and equipment additions from the newly acquired companies subsequent to March 31, 2020.

Finance expense

Finance expense for the three months ended March 31, 2021 of \$2,420 consisted of interest expense related to (i) receivable backed financing of \$1,864; (ii) notes payable of \$335; (iii) right-of-use assets of \$221. Finance expense for the three months ended March 31, 2020 of \$5,499 consisted of interest expense related to (i) receivable backed financing of \$4,281; (ii) notes payable of \$375; (iii) debentures of \$374; and (iv) right-of-use assets of \$469. The decrease in finance expense is primarily due to lower interest rates due to the change in the company's ABL facility and to lower interest as a result of paying down debenture and other non-ABL debt.

Special charges

Special charges for the three months ended March 31, 2021 increased to \$3,051 from \$1,939 last year. Refer to "Adjusted EBITDA (Non-IFRS Financial Measurement)" for a breakdown of special charges.

Other expenses (income)

Other expenses for the three months ended March 31, 2021 was \$1,093 compared to other income of \$1,619 last year. Other income and expenses are primarily the impact of realized and unrealized foreign exchange gains and losses from foreign currency transactions translated into Canadian dollars.

Income tax expense (recovery)

Income tax expense for the three months ended March 31, 2021 increased to \$1,436 from recovery of \$173 in the prior year due to the increased earnings.

Liquidity and Capital Resources

Liquidity

The Company manages its liquidity to ensure that it has sufficient liquidity to meet its short term and long-term commitments as they become due, while maintaining financial flexibility to pursue its strategy of organic and acquisition growth. To date, the Company has effectively managed liquidity through issuance of common shares, proceeds from debt, cashflow from operations. The increased demand for technology solutions due in part to COVID-19 has generally increased investor demand for technology related companies. Refer to the section *Business And Financial Highlights For The Quarter Ended March 31, 2021* for a discussion of the Company's recent financing initiatives.

The Company anticipates that it will have sufficient liquidity to fund its current cash requirements for working capital and contractual commitments, and if required, believes that it has the ability to raise additional capital or debt to help fund its acquisition strategy and achieve planned organic and inorganic growth targets.

Capital Resources

The Company's capital management objectives are to maintain financial flexibility in order to pursue its strategy of organic and acquisition growth and to provide returns to its shareholders. The Company manages its capital structure in accordance with changes in economic conditions. In order to maintain or adjust its capital structure, the Company may elect to issue or repay financial liabilities, issue shares, repurchase shares, pay dividends or undertake any other activities as deemed appropriate under the specific circumstances. The Company is not subject to any externally imposed capital requirements.

Cash Flow Analysis

As at March 31, 2021, total cash on hand was \$68,432 (December 31, 2020 - \$64,767); an increase of \$3,665 since the beginning of the year. As at March 31, 2021, amounts borrowed under existing credit facilities were \$142,211 (December 31, 2019 – \$139,163).

Cash and cash equivalents at the end of the period	\$ 68,432	\$ 26,749

Cash from (used in) operating activities

Cash used in operating activities was \$5,540 for the three months ended March 31, 2021. This was primarily attributable to decreases in inventory of \$12,167, and trade and other payables of \$35,139, which were partially offset by an increase of trade and other receivables of \$22,796 for the three months ended March 31, 2021, as compared to decreases in inventory of \$19,735 and trade and other receivables of \$7,403, partially offset by an increase of \$38,926 in trade and other payables in the same period in 2020.

Cash used in investing activities

Cash used in investing activities for the three months ended March 31, 2021 was mainly due to the acquisition of CarpeDatum and Accudata compared to the acquisition of PCD during the three months ended March 31, 2020. Contingent consideration of \$3,420 was paid during the three months ended March 31, 2021 compared to nil payments in the same period in 2020.

Cash from (used in) financing activities

For the three months ended March 31, 2021, cash generated from financing was \$28,075, which was mainly driven by the Company's net proceeds from an equity raise in January 2021 totaling \$80,940 and net proceeds under the Company's ABL facilities of \$4,242, offset by a transfer to restricted cash of \$49,671 for an acquisition on April 1, 2021. In the three-month comparative period for 2020, cash used in financing was \$11,194 primarily due to the net repayments from borrowings under the Company's ABL facilities of \$12,392.

Revolving Credit Facility

On November 6, 2020, the Company entered into a revolving credit agreement with a syndicate of Canadian lenders. The agreement, which is an asset-based lending ("ABL") facility, provides lines of credit secured by the assets of the Company. The ABL facilities can be drawn to a certain percentage of the eligible trade receivables and inventory balances, to a maximum of \$190,000 (on March 21, 2021, the limit was increased to \$190,000 from \$140,000). Interest is payable monthly at the published CIBC Bank prime rate plus 0% to 2%. At March 31, 2021, the Company was in compliance with the lender's financial covenants under the ABL.

Contingencies

In the normal course of operations, the Company is party to legal claims and contingencies. Accruals are made in instances where it is probable that liabilities have been incurred and where such liabilities can be reasonably estimated. Although it is possible that liabilities may be incurred in instances for which no accruals have been made, the Company does not believe that the ultimate outcome of these matters will have a material impact on its financial position.

Off-Balance Sheet Arrangements

As at March 31, 2021, the Company does not have any off-balance sheet arrangements other than the commitments and contingencies noted above.

Related Party Transactions

Key management personnel are those persons having the authority and responsibility for planning, directing, and controlling activities of the entity, directly or indirectly, including the Company's directors and officers.

Critical Accounting Policies and Estimates

Please see the Company's audited consolidated financial statements for the year ended December 31, 2020 for a discussion of the accounting policies and estimates that are critical to the understanding of the Company's business operations and the results of its operations.

New or Pending Accounting Standards, Amendments and Interpretations

The following new accounting standards have been issued but not yet adopted by the Company at March 31, 2021:

Amendments to IAS 1 In January 2020, IASB issued Classification of Liabilities as "Current" or "Non-current", which amends IAS 1.

The narrow scope amendments affect only the presentation of liabilities in the statement of financial position and not the amount or timing of its recognition. The amendments clarify that the classification of liabilities as current or non-current should be based on rights that are in existence at the end of the reporting period and align the wording in all affected paragraphs to refer to the right to defer settlement by at least 12 months. That classification is unaffected by the likelihood that an entity will exercise its deferral right. The amendments are effective for annual reporting periods beginning on or after January 1, 2023 and are to be applied retrospectively. The Company is still assessing the impact of adopting these amendments on its financial statements.

Risks and Uncertainties

The Company's business is subject to a number of risk factors which are described in its annual information form ("AIF") for the year ended December 31, 2020 and 2019 and its annual MD&A for the years ended December 31, 2020 and 2019, including a discussion of risk as a result of COVID-19 and updated in this MD&A (see "COVID-19" section), all available at www.sedar.com under the Company's profile. The risks presented in the Company's filings should not be considered to be exhaustive and may not be all of the risks that Converge may face. It is believed that these are the factors that could cause actual results to be different from expected and historical results. If any of the noted risks occur, it may negatively affect the financial results of the Company and adversely affect the market price of Converge.
